

G. GRAY
Price, Utah,

March 7. 1981

I object to Luki Milling Company receiving a permit to work as a legitimate company, when it is in violation of the Securities Commission and the Secretary of States rules for doing business. Luki Milling is in violation of the laws in that it keeps several sets of Corporate Books and Minutes and in one day it operates with the original registered Officers and the next day for the past 2 years uses the other set of names not registered under laws of Utah State. To grant a permit to commence Mining would be a serious offence to the Board of Mining. The Corporate books should be immediately seized and you will see my point of object. C.J. Hart is well known for these methods of trying to deceive the State and the I.R.S.

Make judgement after you contact the victims of C.J. Harts fraudekant moves.

Copy sent to the Governor's Office and Corporate records.

Glen Gray one of the Original Incorporators of the Corporation.
